

HERITAGE PROVIDER NETWORK

Directory of Cultural & Linguistic Services of Los Angeles/Orange Counties

Dear Heritage Provider:

In order to help you locate culturally sensitive and linguistically competent services for your diverse patient population, Heritage has developed a Resource Directory, which includes community organizations that are available to your patients.

We have organized resources by subject matter. I hope this format will help you access information quickly.

Please document the referral in the patient's chart.

Although we do our best to keep all information up-to-date, resource contact information changes frequently. Please call us if any information proves to be incorrect.

Thank You for Your Continued Support!

ALZHEIMER’S & DEMENTIA RESOURCES – LOS ANGELES COUNTY

Adult Day Services

Adult Day Services are programs designed to provide stimulation in a safe environment during the day for adults with physical and mental functional impairment, including individuals with Alzheimer’s disease and related disorders. These programs offer an opportunity for social interaction, promote health maintenance, foster independence, provide much-needed respite for family caregivers, or offer family members a safe place for their loved one to stay while they work.

Driving

California law requires that physicians report people diagnosed with dementia, including Alzheimer’s, to the County Health Department. There are driving evaluation programs through area hospitals that assess whether a person can continue to drive safely. These evaluation programs require a physician’s referral and are usually offered by appointment only. Fees vary.

Mental Health

A variety of services are available to assist caregivers and people with Alzheimer’s or other dementias during the stages of the disease process. While many caregivers benefit from support groups, some may find that they need more support. The following agencies offer assistance in the area of counseling to help with feelings of depression, anxiety, anger and/or frustration. While contacting an agency, please keep in mind that services differ from one place to another. We encourage you to ask questions that will help you determine which services best meet your needs.

Safety

Alzheimer's causes changes in the brain that may affect safety. Depending on the stage of the disease, these can include changes in judgement, abstract thinking, sense of time/place and behavior. Taking measures to ensure safety at all times can help prevent injuries, and it can help people with dementia feel relaxed and less overwhelmed.
